

Zoom

Getting Started Guide

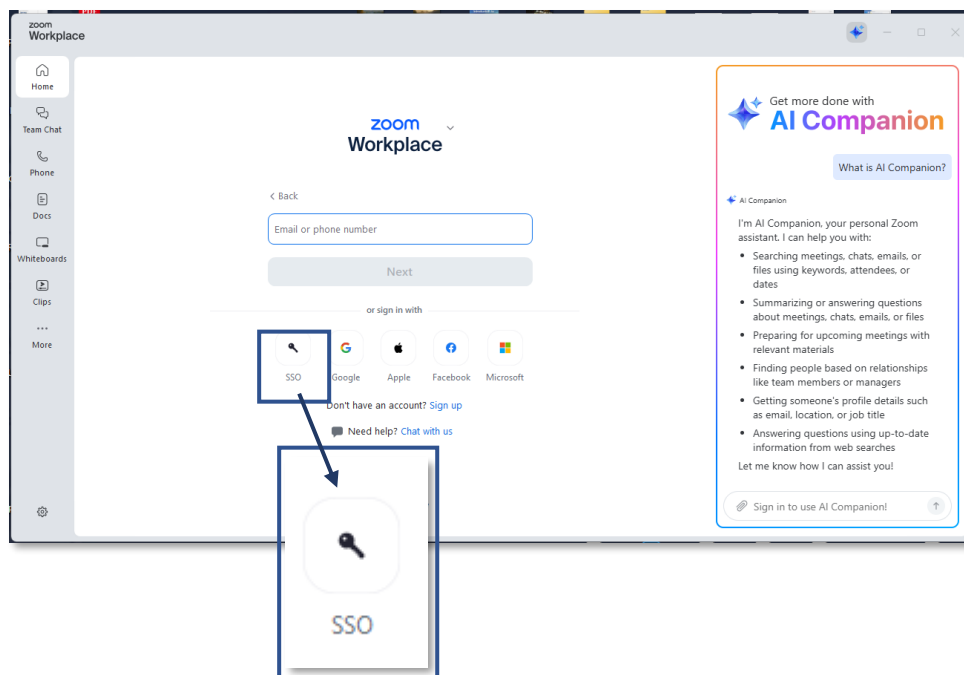

Type in '**Zoom**' to locate the App on the device. Either search '**Zoom**' or look for the '**Zoom Workplace**' tile on the Desktop.

Click the application to launch Zoom Workplace.

Select '**SSO**' (Single Sign On) option to sign in (Key icon).

If needed, enter **bolton** as the Company Domain (as shown below).

Tick the box 'always allow bolton.zoom to open links of this type in the associated app', this will launch the application. From there the user can proceed to join a meeting, normally the tutor will assign a meeting ID number, followed by a passcode (on Moodle).
